

## Unedited student comments- PAR 115: Intro to Ethics (2019-2021)

- Dr. Smithson is an exceptional instructor. This course was online, so there wasn't much of an opportunity for group work; the discussion board allowed us to interact and learn from our peers, which was an effective way to engage in constructive conversation. Dr. Smithson's feedback on assignments was helpful, and he was fair, understanding, and often asked that I challenge myself to improve continuously. The course was well worth the effort, and I'm glad I was able to learn from the subject matter.

- I think you do a great job teaching the material. I was excited to take ethics but it exceeded my already high expectations

- Professor Smithson is a great Professor that really goes out of his way to help his student. The way the course is set up is great and will help me understand the content. I really like all of his writing assignment better than him giving us tests and quizzes and it help me get a better understand. I would love to take any other class with this Professor.

- I loved this course. Dr. Smithson did a fantastic job explaining the concepts in this course and applying them to real life. He answered all emails very promptly and was incredibly kind to review outlines and answer detailed questions. Dr. Smithson left very helpful advice and critiques on every assignment and paper. I have taken a business ethics course and a law ethics course and now introduction to ethics and Dr. Smithson's was by far my favorite out of those.

- I thought replying to everyones discussion posts was very helpful.

- Excellent course taught by an excellent instructor

- Very excellent professor!

- Most of the time students must take a college class because it is a requirement for their degree. Occasionally one finds they really enjoyed the subject and it is a happy surprise. Dr. Smithson was thorough, professional and fair. Sometimes he was even funny during his online lectures which is important because Ethics can be a dry topic so I felt the teacher kept us interested and engaged.

- I thought he was a very good teacher!

- I really enjoyed how this class was organized, especially how Dr Smithson really listened to us when we Brough forth issues about the class (especially opening up discussion boards earlier). I liked how thorough the feedback on our papers were and how

interactive he was in our discussion boards. it really motivated us to get the work done and to be as interactive as Dr Smithson was!
