-Robert is so great! I love the enthusiasm and humor that he uses in his teaching. He is a very effective communicator and I really enjoyed taking a class from him.

-Great class for someone who is more philosophically inclined. I enjoyed the lectures and conversations, but some of the theories were a little above my head. Still I remained in the class and am glad I did.

-Great teacher. He was very helpful in discussion and spend time to help me understand my material. He is positively concerned with my knowledge of our courses material. I would certainly recommend him to another student.

-It was really fun and i enjoyed the discussions that we had in class. The only thing hat was a little bothersome were some of the summaries at the beginning of every class could be little long but this was only annoying because I was exciting to get to the new discussions

-Rob was a good teacher. He was enthusiastic about the course material. He created an upbeat environment that was good for learning. He was very efficient and consistent in presenting course material.
